

# Poly Studio E360

## Smart center-of-table companion camera

4 8MP cameras that deliver a 360° view

Poly DirectorAI multi-camera experience

4 MEMS microphones positioned closer to the in-room attendees

## A smart way to meet face-to-face

Show your best side. Pair the Poly Studio E360 camera with a front-of-room camera to turn every video call into a 360° viewing experience with smart framing.

### The best way to connect? Facing forward.

Powered by 4 8MP cameras and driven by Poly DirectorAI framing modes, this 360° companion camera delivers face-to-face connection in every meeting.

### Zero in on every word

Join the conversation with Poly's legendary audio technology. Close-range microphones connect in-room participants with remote participants.

### Every room, one great connection

Turn any hybrid meeting into a face-to-face conversation with the easily scalable Poly Studio E360 camera that fits across diverse meeting spaces.
